

# AKHAI GALENIKA

(SERVE HEALING COMMUNITY)

## Company Profile

Established in 1995 with the vision to serve the healing community in terms of providing high-tech and innovative health care products to make the treatments and procedures convenient for the medical professionals.

Our major contribution is the establishment of hygiene concepts in Pakistan and being a former partner of a research base multinational company (**BODE Chemie GmbH Germany**), we made it possible to reduce the rate of cross infection and their associated diseases in hospital, medical, Private and government institutes. We also serve the Pharmaceutical, Food, School and Banking Industry.

We believe in ethical promotion of the products by organizing presentations, workshops, seminars and awareness programs.

We achieve this prestigious position through continued focus on human resource development, proactive teamwork and innovative marketing skills.

Our collaboration with the research base and world renowned multinational companies demonstrate the commitment to bring the best and most innovative health care products to Pakistan.

Our selection of the products is according to the need of the market and economy factor with high tech provision.

Our main office is in Karachi equipped with highly qualified technical and dedicated staff whereas our manufacturing facility is located in Hub Industrial Trading Estates, Lasbela, Balochistan, Pakistan.
